Unauthorized use of CIA/PIC Graphics

Reference: 1. CIA/PIC Joint Report 6-58 (15 May 1958)  
2. USAF Air Intelligence Study AIS 3-49A (August 1959)

1. As noted above, PIC JR-6-58 (ref. 1) was published some fifteen months prior to AIS 3-49A (ref. 2). As required, JR-6-58 carried the usual caveat including "Reproduction is prohibited unless approved by the Originator".

2. AIS 3-49A, published in 25 copies, contains two graphics from our report JR 6-58. We are pleased to see our graphics used but feel that the source of the graphics should be made clear.

3. The two graphics in AIS 3-49A in question are as follows:  
Figure 11  
Figure 15

4. Figure 11 still shows our graphics number in the lower left corner (G 279), and in the upper right corner is CIA/PIC. Figure 15 is completely unidentified as to source.

5. A detailed check reveals that no request to use these graphics was made to PIC. Furthermore, neither graphic is sufficiently identified, nor is our earlier report even referenced.
